

Controlstore is an established, leading and respected HVAC peripherals provider in the control and automation industry. We are committed to enabling our customers to deliver HVAC systems success through superior availability, reliability and capability.

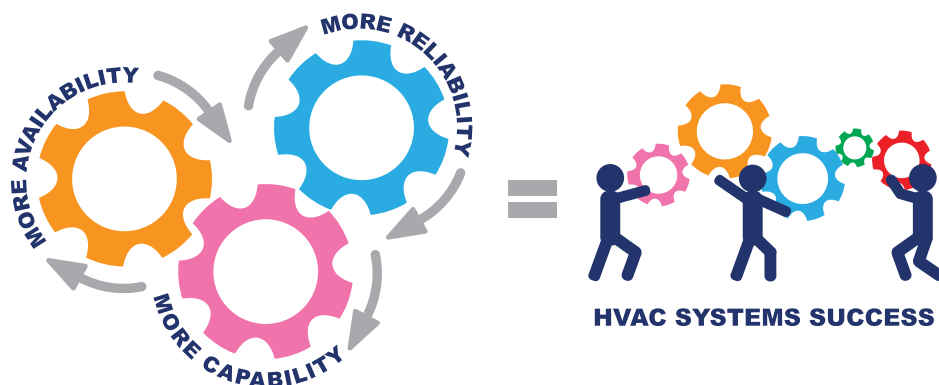

We supply a full range of leading quality, cost competitive HVAC brands and products, and our commitment to customer focus ensures reliable advice, responsive service and technical support excellence.

With offices in Sydney and Brisbane, as well as partners in Melbourne and Wellington (NZ), we pride ourselves on our ability to assist a wide range of customers from walk-in retail customers to sole traders and national organizations.

Our technical assistance is backed up by our suppliers as well as our sister companies Controlworks Pty Ltd, Powerlink Solutions Pty Ltd and LightControl Pty Ltd, to provide guidance and support for your peace of mind.

OUR APPROACH

Controlstore is your trusted partner for the best HVAC advice and products, committed to enabling our customers to deliver **HVAC systems success** through superior availability, reliability and capability. We are passionate about discovering and meeting our customers' needs and providing you with **MORE than just products**.

MORE AVAILABILITY

The convenience of all the leading and quality brands, suppliers and products in one place.

We've got all your needs covered.

MORE RELIABILITY

We're committed to discovering your needs, providing the best advice, responsive service, and support.

We'll go the extra yard to delight you.

MORE CAPABILITY

Enjoy access to advanced technical knowledge, advice and training, supported by our suppliers.

Delivering HVAC systems success.

Our commitment in being proactive and customer driven means we will even source non-standard items at the right price to meet your particular needs. We are continually looking to the future, finding the latest developments in HVAC automation, and sourcing new product ranges and suppliers.

Rest assured, you can trust and rely on Controlstore to provide you the right advice and products, at the right price, and at the right time to ensure you achieve an efficient HVAC system.

CONTROLLERS

- Networkable
- Stand-alone
- Thermostats

SWITCHES

- Current
- Flow
- Pressure
- Wet

FLOW MONITORING

- Electromagnetic Meters
- Turbine and Ultrasonic Meters

VALVES & ACTUATORS

- Actuators for globe & pressure independent combi valves
- Globe and pressure independent combi valves
- Actuators for rotary valves

DAMPER ACTUATORS

- Actuators for air volume control
- Actuators for fire & smoke protection dampers
- Actuators for HVAC applications

OUR PRODUCT RANGE

SENSORS

- Air quality sensors
- Flow sensors (air, water)
- Humidity sensors
- Pressure sensors
- Temperature sensors

TEST EQUIPMENT

- Manometers (portable & air velocity)
- Vane anemometers
- Wind meters
- HVAC balancing instrument

VARIABLE SPEED DRIVES

- Variable speed drives for pumps and fan motors

METERING

- Flow Metering
- Current Transducer
- Power Metering / Energy Metering

WE ARE:

- An Authorised **Siemens** Distribution Partner and **Dwyer** Instrument Partner in NSW
- **Danfoss** Sales Partner in Brisbane and Sydney
- **Sontay** Representative in Australia and New Zealand
- Australian Partner for **Oventrop**, **Ontrol**, **Barcol-Air**

We also supply the full range of key products from **Veris**, **Steinel**, **Smart Temp**, **Honeywell**, **Mamac**, **Johnson Controls** and other brands.

OUR PRODUCT RANGE

We stock the full range of all leading and key HVAC brands, from full systems to field devices, as well as peripherals.
